The German Empire.

It is not easy for the people of one country to understand the institutions and the form of government of another country. Even the best informed of the London papers are constantly making the most comical mistakes about the United States. Frenchman understands nobody but Frenchmen, and to all other peoples the

French Government is an enigma.
We cannot therefore be surprised that the new German Empire puzzles those who have not made a study of it. There is need of explanation how the Emperor of man States that are gove ned by the Emperor William; and how Prince Bismarck could have been-as he was a year or two -deposed from his place as Prime Minister of Prussia, and yet could remain Chancellor of the Empire.

The simplest form of explanation would be to say that the German Empire resembles our own federal government. Our States are wholly independent in some things; in others they are but parts of a whole. So the German States are ruled in some matters by the Imperial Government,

in others by the local governments. There are great differences, of course, In our own country each State has instituons and laws similar to those of all the rest. In the Secate all the States are equal. The citizen of one State is a citizen of another State as soon as he moves into it. In Germany the States vary greatly. There are kingdoms, grand duchies, duchies, principalities, and a free city. The institu-tions, laws and customs differ totally. And yet allowing for the fact that Ger-many is governed monarchically while the United States is a Republic, there is no urs more closely in its general scheme.

The new empire was formed on the 10th of December, 1870. It is made up of twenty-five States, besides Alsace-Lorraine, ne largest of which is Prussia, with twenty-four millions of inhabitants; the smallest, Schaumburg-Lippe, with only thirtyone thousand. Truly a grand Medical Revolution is in progress.

A DERANGED stomach and impure blood force human beings into a melancholy state; Representatives. The Federal Council taries of folly and dissipation have rendition to do business successfully. One of dition to do business successfully. One of the best remedies extant is VEGETINE, which has acquired a reputation as wide as Purifies the Blood, Renovates and the country itself, and is extensively known others one each. The Reichstag consits of about four hundred members, who are will do for it; and if they are not cured, tensively advertised, but its cures have sold it at a more rapid rate than the newspapers. The latter serve to bring it to pulic notice, but like all medicines or inventions it has been forced to stand the test of trial and time, and its rapid sale shows how strong a hold it has gained.

Success Based Upon Merit.

It is a subject of general remark, both wholesale and rethil druggists, that no medicine introduced to the American public with so large a sale in all parts of the land, it the same length of time, as Dr. Pierce's Gold en Medical Discovery. This cannot depend upon its having been more largely advertised than any other medicine, as such is not the case. The correct explanation, we think, found in the fact that this medicine produce the most wonderful and perfect cures of verbad cases of bronchial, throat and lung d efficient remedy for all kinds of coughs that has ever been introduced to the public, and only the leader of that ministry, but the former. Besides, the country is by no prime Minister of the Empire. The two means the moral paradise that it has been blood-purifying and strengthening properties represented to be. There is no need of that medical science has been able to produce importations of idleness, dissipation and thus rendering it a sovereign remedy not on caused him to be selected to fill both positions at once.

The Most Wonderful Medical Discovery of the Age-Every Man His Own Physician. Frazier's Great Remedy.

The people of the United States have been humburged with all kinds of patent medicines, quacks and impostors, for the pact few years, in a most hamful manner. The writer of the following is one of the victims, and sines to present a very plant case. Believing that by cleansing the blood was the only true way of banishing disease, and being for years a great sufferer from weakness. Ining disease and a scrotulous affection, and after trying many kinds of patent medicines and the most eminent physicians, i commenced doctoring myself, and at last discovered a Rlood Searcher, or Root Bilters, which not only gave me immediate rules, but effected a complete ours. I then feeting confident that my Discovery possessed wonderful healing virtues, prepared a quantity of Bilters, and was in the habit of giving them away to the sick and suffering. I found they effected the most miraculous cures, not only curing Serofula and Consumption of the Lungs, but all diseases caused from humers in the blood. At last the demand became so great I found myself calked upon to send Bilters to all parts of the continent, and laws compelled to establisher laboratory for the purpose of compounding and putting them up in large quantities for use. I was a first backward is presenting elither myself or my discovery to the profile, not being a patent heedshe man, but I am getting bravely over that. I can now supplying thousands of druggists and storekeepers with my floot Bilters to sell again, and it is my desire and determination. To pace the same within the reach of every efflicted man, woman and child on the face of the globe. These Book Bitters and child on the face of the globe. These Book Bitters and remain long unwell. Victory upon victory they have gained over disease and death in all stations and remain long unwell. Victory upon victory they have gained over disease and bear to.
